**Bio :**

**Prof. Chao-Ming Huang** is a Full Professor in the Department of Electrical Engineering at Kun Shan University. He received his M.S. and Ph.D. degrees in Electrical Engineering from National Cheng Kung University, Tainan, Taiwan, in 1992 and 1997, respectively. His doctoral research focused on economic dispatch and load forecasting of power systems.

His current research interests mainly include parameter estimation of solar cells, renewable energy forecasting, and power dispatch in power systems. He has been recognized as one of the World's Top 2% Scientists from 2020 to 2024.
