

**ICRERA 2025**

**14th INTERNATIONAL CONFERENCE ON RENEWABLE  
ENERGY RESEARCH AND APPLICATIONS**

**Paper ID** :178

**Paper Title** : Verification tests for the utilization of regenerative power in case of substation bus voltage droppage

**Bio :**

Shun Iwatsuki belongs to the Environmental Engineering Research Laboratory of Research and Development Center of JR East Group, East Japan Railway company, Japan.

His research focuses on energy conservation through the effective utilization of regenerative power using ground substation equipment in DC electrified railways.
