

ICRERA 2025

14th INTERNATIONAL CONFERENCE ON RENEWABLE ENERGY

RESEARCH AND APPLICATIONS

Assistant Professor, Javad Khazaei, Ph.D.

Lehigh University, PA, U.S.

Paper ID: 235

Paper Title: Two-Stage Nonlinear Model Predictive Control for Navigation and Resource Allocation of Autonomous Navy Ships

Bio: Dr. Javad Khazaei is an Assistant Professor in the Department of Electrical and Computer Engineering at Lehigh University, U.S. and the Director of the INTEGRated, Resilient, and Intelligent Energy Systems ([INTEGRITY](#)) Laboratory. Between 2016 and 2021, he was an Assistant Professor at Penn State Harrisburg and an Affiliated Assistant Professor in the Architectural Engineering Department at Penn State University Park, U.S. He earned his Ph.D. in Electrical Engineering (Power and Energy) from the University of South Florida (USF) in 2016. Dr. Khazaei's research focuses on smart grid dynamics and control, data-driven model identification and control, water-energy microgrids, smart grid cybersecurity, and the integration of renewable energy into cyber-physical power systems.
