

ICRERA 2025

14th INTERNATIONAL CONFERENCE ON RENEWABLE ENERGY RESEARCH AND APPLICATIONS

Mr. Yasuyuki Kanai

EXEO GROUPE, INC., Tokyo, Japan

Paper ID : 273

Paper Title : Evaluation of passive maximum power point tracking performance of power conditioner-less PV-storage battery systems

Bio :

He joined this company in 2015 and is involved in research and development of smart energy. His core technology is Power Electronics. For more than 20 years he has been interested in power conversion circuits and healthcare technology for storage batteries. In recent years he has been developing basic technologies for local DC grids.
