

ICRERA 2025

**14th INTERNATIONAL CONFERENCE ON RENEWABLE
ENERGY RESEARCH AND APPLICATIONS**

Abdulla Aldabbous

Saudi Aramco, Saudi Arabia

Paper ID : 296

Paper Title : Quantitative Comparison between Diesel Generator and ESSs

Bio :

Abdulla Aldabbous is a senior technical support engineer with more than 8 years of field experience in operation, maintenance green and brown field projects in the area of industrial power engineering, in which he led the resolution of complex electrical engineering issues. In addition, He is the energy manager of several oil facilities. He has led several energy saving items and developed energy management programs for his assigned facilities.

He is the author of several research papers in IEEE conferences. His research interests include: energy efficiency, renewable energy integration, reliability of industrial electrical power network.
