

ICRERA 2025

14th INTERNATIONAL CONFERENCE ON RENEWABLE ENERGY RESEARCH AND APPLICATIONS

Ph.D. Student, Junior Diamant Ngando Ebba

GREAH Laboratory, University of Le Havre Normandie, Le Havre, France.

GREI Laboratory, University of Quebec Trois-Rivières, Quebec, Canada.

Paper ID : 306

Paper Title : Behavioral Aging Modeling and Real-Time Parameters Estimation of Lithium Iron Phosphate Battery in a Hydrogen Production System.

Bio :

Junior Diamant Ngando Ebba received the B.S. and M.Eng. degrees in Pedagogical Sciences and Electrical Engineering from ENSET, University of Douala, Douala, Cameroon, in 2018 and 2020, respectively, and the M.S. (Research) degree in Electrical Engineering, with a specialization in Electrical Energy and Robotics, from the National Higher Polytechnic School of Douala, University of Douala, in 2021. Since December 2022, he has been working toward the Ph.D. degree in Electrical Engineering jointly with the GREI Laboratory, University of Quebec at Trois-Rivières, Quebec, Canada, and the GREAH Laboratory, University of Le Havre Normandie, Le Havre, France. His current research interests include the management of power intermittency in hydrogen production systems powered by marine renewable energy sources.
