

**Daniel Fodorean** received his Bachelor's and Master's degrees in Electrical Engineering from the Technical University of Cluj-Napoca, Romania, in 2001 and 2002, respectively. He earned his Ph.D. in Electrical Engineering from the University of Technology of Belfort-Montbéliard, France, in 2005. In 2014, he was awarded the Habilitation degree in Electrical Engineering from the Technical University of Cluj-Napoca.

He is currently a Full Professor at the Technical University of Cluj-Napoca. His research interests focus on the design, control, and optimization of electrical machines and drives, as well as the modeling and characterization of energy storage systems. Additionally, he explores the application of Virtual Reality concepts to enhance energy management in electric vehicles (EVs).

### Paper proposed for ICRERA2025

<b>ID</b>	<b>Title of the Paper</b>	<b>Authors</b>
<b>345</b>	<b>Green Hydrogen Production Capability based on a Hybrid Renewable System – a Case Study</b>	<b>Daniel FODOREAN Lucian C.A. CIOCHINDA</b>
