

ICRERA 2025

14th INTERNATIONAL CONFERENCE ON RENEWABLE ENERGY RESEARCH AND APPLICATIONS

Syed Mohammad Ghouse

Professor
School of Management
CMR University
Bangalore, Karnataka

Paper ID : 480

Paper Title : Economic Implications of Electric Vehicle Integration on Power Markets and Grid Stability

Bio :

Dr. Syed Mohammad Ghouse, Professor at the School of Management, CMR University, Bangalore, brings a multidisciplinary perspective to the evolving challenges of energy markets and sustainability. With a strong foundation in management sciences and a research portfolio that spans human resource development, strategic marketing, and organizational behavior, Dr. Ghouse's work increasingly intersects with the dynamics of energy policy, market design, and resilience planning.

In the paper "Economic Implications of Electric Vehicle Integration on Power Markets and Grid Stability", Dr. Ghouse contributes a management-oriented perspective to the complex interplay between electric vehicle (EV) adoption and energy market evolution. His insights help frame EV integration not just as a technical challenge, but as a strategic opportunity for market restructuring, stakeholder engagement, and policy innovation.
