PROJECTS

Projects at Acclaim Systems Inc.:

- **Online portal** for a leading telecom provider.
Team Size: 5 FTE
Duration: 5 Months
Responsibility: Development.
Technologies: ServiceNow
Description: The portal offers online application for professional license renewal.
- **Customer Support portal** for a leading payroll company.
Team Size: 20 FTE
Duration: 3 years
Responsibility: Development.
Technologies: ReactJS, Redux, MongoDB, ExpressJS.
- **Licensing System:**
Team Size: 20 FTE
Duration: 1 year
Responsibility: Development.
Technologies: AngularJS, ASP .NET, C#, SQL Server

Projects at Aptus Health India Pvt. Ltd.:

- **Online Drug sampling system.**
Team Size: 5 FTE
Duration: 2 Years
Responsibility: Development and support for the system.
Technologies: Classic ASP, ASP.NET (2.0, 3.5) with C#, SQL Server 2000, JavaScript.
Description: The system offers industry's most comprehensive drug sampling solutions. Using the latest innovations in drug sampling, we can reach more physicians, more often. The system provides physicians with 24/7 instant access to request the samples, vouchers, and coupons that they need.
- **Developing Mobile Sampling site**
Team Size: 5 FTE
Duration: 1.5 Year
Responsibility: Development for the new system for mobile users.
Technologies: ASP.NET MVC 4.0, Sql Server 2008, JQuery, WCF services.
Description: The project requirements were to create entirely new sites to enable physicians to order drug samples over mobile devices.
- **Platform Upgrade (Upgrading website from old technology to new Microsoft technology)**
Team Size: 5 FTE

Duration: 1 Year

Responsibility: Development and support for the new system.

Technologies: ASP.NET 4, ASP.NET MVC 4, Entity Framework 5, Sql Server 2008 R2, JQuery, WCF services, Bootstrap, Log4Net, Visual Studio 2010

Description: The old site has a mix of technology components, some are in VB6, in classic ASP, ASP.NET 1, 2 and 3.5. This leads to the new site eliminating this address.
