

ICRERA 2025

**14th INTERNATIONAL CONFERENCE ON RENEWABLE
ENERGY RESEARCH AND APPLICATIONS**

Mr. Sho Nagata

Nagasaki Institute of Applied Science, Nagasaki, Japan

Paper ID : 520

Paper Title : Stability-Oriented Analysis of a CO₂ Turbine-Based Thermal Gradient Power Generation System

Bio :

He received the B.Eng. degree in Faculty of Applied Information Technology, Nagasaki Institute of Applied Science, Nagasaki, Japan, in 2024. Since 2024, he has been a master's course student with the Graduate School of Engineering, Nagasaki Institute of Applied Science. His research focuses on a CO₂ turbine-based thermal gradient power generation system, emphasizing stability and efficiency under low-temperature renewable energy conditions. He is a student member of the Institute of Electrical and Electronics Engineers (IEEE) and the Institute of Electronics, Information and Communication Engineers (IEICE).
