

Paper ID: 76

Title: Individual Identification of Multiple EV-Charger Pairs via Modulated Charging Current Technology

Name: Narutaka Nomura

Affiliation: Institute of Systems and Information Engineering, University of Tsukuba

Location: Tsukuba, Japan

Contact: s2420888@u.tsukuba.ac.jp

Narutaka Nomura received the bachelor's degree from the College of Engineering Systems, University of Tsukuba, Japan, and is currently pursuing the master's degree with the Institute of Systems and Information Engineering, University of Tsukuba, Japan. His research interests include electric vehicle charging services and forecasting renewable energy generation.
