

ICRERA 2025

14th INTERNATIONAL CONFERENCE ON RENEWABLE ENERGY RESEARCH AND APPLICATIONS

Lorenzo Giuntini

ABB Switzerland Ltd, Quartino, Switzerland

Paper ID : 96

Paper Title : Ripple Current Estimation in AC filters of Voltage Source Converters

Bio :

Mr Lorenzo GIUNTINI is Principal Engineer at ABB Switzerland in QUARTINO, SWITZERLAND. His main focus is on Uninterruptible Power Supplies (UPS). He authored several scientific papers and holds various patents and applications in the area of power converter topologies and their modulation, control and operation. He received a Master Degree in Electronic Engineering from the University of Bologna (Italy) in 1995, and he subsequently earned an MBA from the same university in 2005.
